SUMMARY

Computer Science undergraduate (6th semester) at FAST-NUCES with strong expertise in C++ and Data Structures & Algorithms. Experienced in full-stack (MERN) development and Flutter-based mobile applications. Built systems ranging from low-level 8086 Assembly projects to AI-based solutions in digital image processing. Interested in building scalable software systems and AI-driven applications.

EDUCATION

Bachelor of Computer Science (Ongoing)
6th Semester

FAST-NUCES

EXPERIENCE

Founder & Developer – NovaStack

2025 – Present

Founded and led [NovaStack](#), building full-stack web applications and AI-driven solutions. Developed scalable MERN-based systems, managed client projects, and handled end-to-end product development.

SKILLS

Programming	C++, Python, JavaScript, SQL, C
Web Development	MERN Stack (MongoDB, Express, React, Node.js), REST APIs
Mobile	Flutter (Dart)
Core CS	Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, COAL (8086)
Tools	Git, Linux (Ubuntu), VS Code, Postman

PROJECTS

TradeJournal – MERN Stack Web App

[GitHub](#)

Built a full-stack web application to track and manage trading activity. Developed REST APIs using Node.js and Express, and managed data with MongoDB. Implemented trade logging, filtering, and performance tracking features.

NotifyCircle – Flutter Reminder App

[GitHub](#)

Developed a cross-platform mobile application for scheduling reminders. Implemented local notifications and task management using Flutter and Dart.

Pneumonia Detection – AI Project

[GitHub](#)

Built a machine learning-based system for detecting pneumonia from chest X-ray images. Applied image preprocessing and classification techniques using Python.

Virtual Wardrobe System (SQL)

[GitHub](#)

Designed and implemented a relational database system for managing clothing items and outfit combinations. Focused on optimized queries and efficient data retrieval.

ACHIEVEMENTS

- Solved 150+ problems on LeetCode (Graphs, DP, Recursion, Greedy)
- Secured 6th position in FAST Competitive Programming Contest (FCPC)
- Deputy, Cinematography Department – Softec 2025
- Attended Google Developer Student Club (GDSC) workshops
